ACADEMIC RECORD

Course	Institution	Board/ University	Completion By	Marks (%/CGPA)
MCA	College of Engineering Guindy	Anna University	2026	7.94 CGPA
BSc (Computer Systems and Design)	PSG College of Technology	Anna University	2024	7.77 CGPA
XII	Kendriya Vidyalaya IIT Chennai	CBSE	2021	87.8%
X	St.Patrick's High School (ICSE)	ICSE	2019	89 %

SKILL SET

APPLICATION SOFTWARE	Microsoft 365 Copilot, Visual Studio Code, MATLAB, Wireshark, Burp Suite, Nmap , Android Studio.
PROGRAMMING LANGUAGES	Java, Python, JavaScript.
DATABASE	MySQL , PostgreSQL, MongoDB.
Data Analytics & BI:	Power BI, DAX, Power Query, Power Apps, Databricks, Azure Data Factory (ADF).

WORK EXPERIENCE

Data Specialist Intern | Philips

Jan 2026 – June 2026

- Contributed to enterprise analytics and business intelligence initiatives by developing reporting and performance monitoring solutions.
- Collaborated with stakeholders to deliver data insights and was recognized during team reviews for contributions to the **Philips Inventory Insights Dashboard** and **OIT KPI Tree Analytics Platform**.

PROJECTS

Philips Inventory Insights Dashboard.

- Developed a Power BI Inventory Insights Dashboard with **Inventory Summary, Regional Performance, MAT Sales, PH Metrics, Corporate Metrics**, and **End-to-End Inventory Analysis** for inventory performance monitoring.
- Implemented KPI cards, slicers, drill-through navigation, **waterfall charts**, combo charts, **Inforiver, Zebra BI visuals**, and **GenAI-powered commentary** to support business analysis, and decision-making.
- **Tech Stack:** Power BI, DAX, Power Query, Inforiver, Zebra BI, Data Modelling, Excel.

OIT KPI Tree Analytics & AI FP&A Platform.

- Developed an enterprise **KPI Tree** analytics platform with interactive **KPI hierarchies**, drill-down navigation, **scenario simulation**, and **variance analysis** to support financial and operational performance monitoring.
- Integrated AI-generated insights, business explanations, and **Master Agent orchestration** while contributing to **Digital Finance Cockpit** and **AI FP&A integration**, enabling root-cause analysis and data-driven decision-making.
- **Tech Stack:** Python, React.js, TypeScript, ITAAP, REST APIs, Financial Analytics.

SecurePay – Credit Card Fraud Detection using Face Recognition.

- Developed a fraud detection system that combined facial recognition and machine learning techniques to enhance the security of credit card transactions.
- Trained and evaluated machine learning models to identify suspicious transaction patterns, improving fraud detection accuracy while reducing false positives.
- **Tech Stack:** Python, Scikit-learn, Pandas, NumPy, Machine Learning (SVM & Random Forest).

ACHIEVEMENTS & RECOGNITIONS

- Awarded recognition during a **Philips Hackathon Recruitment Challenge** for proposing innovative business and technology solutions, demonstrating creativity, problem-solving, and analytical thinking.
- Recognized in team monthly meetings for key contributions to the **OIT KPI Tree Analytics Platform** and **Philips Inventory Insights Dashboard**.
